

Standard and Optional Finishes

The chart below provides a quick reference to standard and optional finishes available on Kimball casegoods. Optional finishes (noted below with an "A") are available at a 6% upcharge and require no prior approval from Customer Service. To order, simply specify the finish name and designator on your purchase order. Contact Customer Service for lead times.

Finish Specifications

The finish for each casegoods series has a fill and sheen level for top surfaces that is appropriate for the design and wood species being used.

Cherry and mahogany woods are very susceptible to darkening from exposure to UV rays (sunlight and other sources).

Although a special UV inhibitor is added to light finishes, care in placement and elimination of prolonged covering of surfaces is necessary to reduce uneven color change of the wood.

Key: ● Standard finish available at no upcharge. (Order as instructed within each series.)
 A Optional finish available at 6% upcharge. (Specify finish name and designator on order.)
 Finish not available.

Note: Finish fill and sheen will comply with product specifications for the series. If different specifications are required, contact Customer Service for quotation.

Special Finish Pricing

Custom finish color matching is available for special needs. Kimball has thousands of previously developed special colors that will reduce minimum charges if acceptable as a match. If not, a new custom match will be developed to meet specific needs.

Upcharges are based upon the total net price of the specific units per order receiving the special finish.

Previously Developed Special Finish

\$0-\$2,500 \$250.00
 \$2,500-\$20,000 + 10%
 \$20,000-\$100,000 + 5%
 \$100,000 and above negotiable

Custom Match Finish

\$0-\$7,500 \$750.00
 \$7,500-\$20,000 + 10%
 \$20,000-\$100,000 + 5%
 \$100,000 and above negotiable

To Order Special Finish

- 1) Reference the special pricing for feasibility noting minimum charges for small orders.)
- 2) Send desired finish sample (no smaller than 2" x 2") to Customer Service along with a complete listing of the product and the wood species to which the special finish is to be applied. Also include dealer name, contact and project reference.

- 3) If a previously developed sample is found to match, a sample will be sent immediately. Custom matches will generally require one week or longer. Samples are sent along with clarification of the upcharge minimums and any restrictions that may apply.
- 4) The customer signs off on the sample and returns the approval form to Customer Service. Advance approval is required prior to order entry. Additional lead time may be required. Please contact Customer Service with specific order entry and model information.

Specific Wood Finishes

General Information

Kimball's experience in wood finishing extends from past generations of craftsmen to present day state-of-the-art technology with catalyzed lacquer finishes. The Kimball finish offering consists of 16 core wood finish colors that may be applied to a variety of appropriate wood species.

Restricted Finish: Large dot (●) following designator indicates a special finish that is restricted due to variance in color. These are light finishes on dark veneer which cause difficulty in production and result in an unsatisfactory product. No orders will be accepted except as approved by Special Products division.
